Bound Volumes of the Journal

Limited numbers of the following bound volumes are available:—

Volume 6 (1946)	£2.75	Volume 30 (July-December 1965) ..	£4.00
Volume 7 (1947)	£2.75	Volume 31 (January-June 1966) ..	£4.00
Volume 9 (1949)	£3.25	Volume 32 (July-December 1966) ..	£4.00
Volume 10 (1950)	£3.75	Volume 33 (January-June 1967) ..	£4.00
Volume 12 (1952)	£3.75	Volume 34 (July-December 1967) ..	£4.00
Volume 17 (1957)	£4.50	Volume 35 (January-June 1968) ..	£4.00
Volume 18 (1958)	£4.50	Volume 36 (July-December 1968) ..	£4.00
Volume 19 (1959)	£4.50	Volume 37 (January-June 1969) ..	£4.00
Volume 21 (January-June 1961) ..	£3.50	Volume 38 (July-December 1969) ..	£4.00
Volume 23 (January-June 1962) ..	£3.50	Volume 39 (January-June 1970) ..	£4.50
Volume 24 (July-December 1962) ..	£3.50	Volume 40 (July-December 1970) ..	£4.50
Volume 25 (January-June 1963)* ..	£3.50	Volume 41 (January-December 1971)†	£6.25
Volume 26 (July-December 1963) ..	£3.50	Volume 42 (January-December 1972)†	£7.00
Volume 27 (January-June 1964) ..	£3.75	Volume 43 (January-December 1973)	£8.50
Volume 28 (July-December 1964) ..	£3.75	Volume 44 (January-December 1974)	£10.00
Volume 29 (January-June 1965) ..	£3.75	Volume 45 (January-December 1975)	£13.00

Volumes 1–5, 8, 11, 13–16, 20 and 22 are now out of print.

* In January 1963 the *Journal* was given the title *The Radio and Electronic Engineer*. Prior to this date it was entitled *The Journal of the British Institution of Radio Engineers*.

				Postage and Packing extra	
				Great Britain	Overseas
† Bound volumes of <i>Journal</i> and <i>Supplement</i> combined	..	..	..	£8.25	85p
Bound volumes of <i>Supplement</i> only	..	..	..	£3.55	50p

Members' own copies of the *Journal* can be bound into volumes at a cost of £4.25 per volume (postage and packing extra: Great Britain 85p, Overseas 85p).

The appropriate *Journals* should be sent to the Publications Sales Department, IERE, 9 Bedford Square, London WC1B 3RG.

SUBSCRIPTION RATES FOR THE JOURNAL, 1976

Home and Overseas: 1 year	£18.00	2 year	£32.00	3 year	£45.00	Single copies	£1.50
U.S.A. and Canada: 1 year	\$49.00	2 year	\$88.00	3 year	\$124.00	Single copies	\$4.25
India: 1 year	Rs.340	2 year	Rs.595	3 year	Rs.830	Single copies	Rs.32

INFORMATION FOR AUTHORS

Papers published in *The Radio and Electronic Engineer* are listed or abstracted as follows:

Title listings: 'British Technology Index'; 'Current Papers' (Electrical and Electronic Engineering, Physics, and Computers and Control); 'Current Contents'; 'Science Citation Index'; ASCA.

Abstracted fully: 'Science Abstracts' (Physics, Electrical and Electronics, and Computer and Control); 'Referativni Zhurnal'.

Abstracted selectively: 'Chemical Abstracts'; 'Computing Reviews'; 'Acoustics Abstracts'; 'Solid State Abstracts Journal'; 'Nuclear Science Abstracts'.

Offers of papers and short contributions for consideration for publication in *The Radio and Electronic Engineer* or for reading at meetings are welcomed and should be sent to the Institution. The general requirements for manuscripts, illustrations etc. are specified in the leaflet 'Guidance for Authors', a copy of which will be sent on request. Submission of a synopsis prior to completion of the full paper, though not essential, can save time and unnecessary effort on the part of an intending author.

Principal Contents of Volume 45, 1975

JANUARY/FEBRUARY

'Ionospheric Radio Wave Propagation'

The past and the future	1
Ionospheric radio wave propagation. L. W. BARCLAY	2
Developments in ionospheric physics since 1957. W. C. BAIN and H. RISHBETH	3
Solar-terrestrial relations and short-term ionospheric forecasting. F. E. COOK and C. G. McCUE	11
Long-term h.f. propagation predictions for radio-circuit planning. P. A. BRADLEY	31
The CCIR and the ionosphere. G. MILLINGTON	42
The propagation of l.f. and v.l.f. radio waves with reference to some systems applications. B. BURGESS and T. B. JONES	47
Ionospheric perturbations and their effects on the accuracy of h.f. direction finders. T. B. JONES and J. S. B. REYNOLDS	63
A digital generator for pattern drawing applications. D. O. CRAWFORD, R. J. HALE and Professor K. G. NICHOLS	75

MARCH

Advances in automatic testing technology. R. KNOWLES	93
Transistor configurations in integrated transistor antennas. P. K. RANGOLE and S. P. S. SAINI	95
Further observations on the detection of small targets in sea clutter. Professor J. CRONEY, A. WORONCOW and B. R. GLADMAN	105
Digital arithmetic units for a high data rate. Professor P. M. THOMPSON and A. BELANGER	116
Evaluation methods for the examination of thick film materials. M. V. COLEMAN	121
A microprocessor-controlled interface for data transmission. F. HALSALL	131
Principles of thick film materials formulation. B. WALTON	139

APRIL

Promoting non-glamorous technologies	153
A noise-protected digital heart ratemeter. R. J. TWIZELL	155
Object identification from multi-frequency radar returns. A. G. REPJAR, Professor A. A. KSIENSKI and L. J. WHITE	161
Series-parallel generation of m-sequences. J. J. O'REILLY	171
A design for a low-cost high-speed m.o.s. associative memory. R. M. LEA	177
A double phase sweeping system for diversity reception in mobile radio. A. J. ROGERS	183

MAY

'Leaky Feeder Radio Communication Systems'

Leaky feeders. Q. V. DAVIS	201
A general study of the leaky-feeder principle. D. J. R. MARTIN	205
Practical performance of radiating cables. D. J. CREE and L. J. GILES	215
Leaky coaxial cable for communication in high-speed railway transportation. S. OKADA, T. KISHIMOTO, K. AKAGAWA, Y. NAKAHARA, K. MIKOSHIBA, F. HORIGUCHI and K. OKAMOTO	224
Theory of transmission of electromagnetic waves along multiconductor lines in the proximity of walls of mine tunnels. J. R. WAIT	229
Electromagnetic theory of the leaky coaxial cable. Professor P. P. DELOGNE and M. SAFAK	233
Control of mode conversions on bifilar line in tunnels. L. DERYCK	241
Field leakage and crosstalk, with special reference to radiating cables with perforated tape screens. R. J. SLAUGHTER	248

JUNE

Teletext—the next big development in television baseband channels?	269
Linear and non-linear transversal equalizers for baseband channels. A. P. CLARK and U. S. TINT	271
Digital waveform synthesis. W. A. EVANS, W. A. GREY and E. M. DAVIES	284
Design of sharp-cut-off low-pass filters with ripples in the pass-band. Professor S. C. DUTTA ROY and P. CLARK	293
Tracer: a voice-frequency system for radio navigation aids. J. D. LAST and E. W. ROBERTS	299
A 150-MHz coaxial line radar transmitter for the study of radar aurora. C. A. JENNESS	311

JULY

Communication between all engineers	325
The 25th anniversary of the stored program computer. Lord BOWDEN	326
Early computers at Manchester University. Professor F. C. WILLIAMS	327
Early computer developments at Cambridge: The EDSAC. Professor M. V. WILKES	332
The Pilot ACE at the National Physical Laboratory. J. H. WILKINSON	336
Computers in the University of London, 1945–1962. A. D. BOOTH	341
The effect of the polarization characteristics of the receiving feed on cross-polarization of receiving reflector antennas. S. I. GHOBRIAL	346
Analysis of a dual-frequency moving target indication system. J. K. HSIAO	351
Diversity techniques for mobile radio reception. J. D. PARSONS, M. HENZE, P. A. RATLIFF and M. J. WITHERS	357

AUGUST

Celebrating fifty years	377
Limitations of radar techniques for the detection of small surface targets in clutter. P. D. L. WILLIAMS	379
The importance of water purity in the successful operation of vapour-cooled television klystrons. R. HEPPINSTALL and G. T. CLAYWORTH	391
Dielectric and conductivity measurements on thin liquid films of n-heptanol. R. W. RENNEL and Professor J. C. ANDERSON	401
The inconspicuous computer. A. C. D. HALEY	409
Performance problems with LEO I. J. M. M. PINKERTON	411
The Elliott 400 series and before. S. L. H. CLARKE	415
The history of Ferranti computers. B. Z. de FERRANTI and B. B. SWANN	422
Information systems retrospect and prospect. G. G. SCARROTT	427

SEPTEMBER

Do we care?	449
On the use of delays for wide-band superdirective beam forming in endfire and broadside arrays. R. BENJAMIN ..	451
A high-frequency-optimized RC-active filter based on the Wien Bridge. Professor E. A. FAULKNER and J. B. GRIMBLEBY	462
Coefficient plane models for tracking system design. Professor D. R. TOWILL	465
The finite element method for potential calculations in a Hall plate. G. DE MEY	472
A sub-nanosecond data storage system. D. G. WHITEHEAD	475
A two-step strategy for character recognition using geometrical moments. N. D. TUCKER and F. C. EVANS ..	481

OCTOBER

Golden Jubilee of the Institution of Electronic and Radio Engineers

A twentieth century institution. G. D. CLIFFORD	513
Semiconductor devices—portrait of a technological explosion. I. M. MACKINTOSH	515
The education of professional electronic engineers. Professor K. G. NICHOLS	525
Electronic components—from valves to integrated circuits. G. W. A. DUMMER	530
Lasers and optical electronics. Professor W. A. GAMBLING	537
Fixed communications. A. S. PUDNER	543
Fifty years of mobile radio. J. R. BRINKLEY	551
Television reception 1925–1975. D. W. HEIGHTMAN	559
Television broadcasting—engineering or entertaining? F. H. STEELE	570
Broadcasting and receivers. Professor W. GOSLING	575
Radio navigation aids: a personal view. H. F. SCHWARZ	580
Radar: some personal recollections. P. A. ALLAWAY	585
Present-day control engineering—is it latin to the undergraduate? Professor D. R. TOWILL	591
The foundations of computer engineering. M. WOODGER, J. R. PARKS and Professor D. W. LEWIN	598
Electronics and nuclear power. R. J. COX	603
Ocean technology. M. J. TUCKER	610
Medical electronics. W. J. PERKINS	617
Electronics in space. W. F. HILTON	623
Whither data-processing? Professor D. W. LEWIN	627
New horizons in electronics. J. R. JAMES	631

NOVEMBER

If birthdays could last for ever	645
Charged-coupled devices—concepts, technologies and applications. J. D. E. BEYNON	647
Design of type 2 digital phase-locked loops. P. ATKINSON and A. J. ALLEN	657
Recent developments in the theory and practice of testable logic design. R. G. BENNETTS and R. V. SCOTT	667
Digital hardware modelling of deterministic traffic flow. T. J. TERRELL and E. T. POWNER	680
‘The other side of the paper’—A personal view of the CEI Part 2 subject: The engineer in society. P. C. T. WILLEY	694

DECEMBER

Prospects for the profession	705
Epitaxial magnetic garnets. Professor J. H. COLLINS and A. B. SMITH	707
Bubble materials—composition, growth and evaluation. E. A. D. WHITE and J. D. C. WOOD	711
Magnetic bubble domain memories in epitaxial garnet films. J. L. TOMLINSON and H. H. WIEDER	725
Microwave device applications of epitaxial magnetic garnets. J. D. ADAM, Professor J. H. COLLINS and J. M. OWENS	738

Subject Index	(vii)
Index of Persons	(xiii)

Subject Index

Papers are denoted by printing the page numbers in bold type

Accounts for 1974-1975	497	BNES Cockcroft Lecture	506
Adaptive detection system for time-varying pulse signals (abstract)	146	National Electronics Review	634
Adaptive signal processing using tuneable filters, Some examples (abstract)	146	Membership Certificate Presentations at Kent Section's Annual General Meeting	634
Adaptive techniques for high resolution spectrum estimation (abstract)	146	A Service for Members—The Institution's BUPA Group	634
AERIALS		International Conference on Automobile Electronics	635
Transistor configurations in integrated transistor antennas	95	Cenelec Approval for UK Manufacturer	635
The effect of the polarization characteristics of the receiving feed on cross-polarization of receiving reflector antennas	346	IEE-IERE Proceedings—India	635
On the use of delays for wide-band superdirective beam forming in endfire and broadside arrays	451	The 50th Annual General Meeting of the IERE	688
ANNOUNCEMENTS		Membership Subscriptions and Entrance/Transfer Fees for 1976	692
Index for 1974	82, 192	Golden Jubilee Tie	692
Abstracts $\times 10^6$	82	Conference on 'The Applications of Electronics in Medicine'	692
Special issue on Ionospheric Radio Wave Propagation	82	Court of the University of Nottingham	693
Membership Committee Meets Outside London	82	The Thomas Hawksley Lecture	693
Electronics Information and Planning	82	Progress of United States Metric Bill	693
Electronic Components Board	82	One-day Colloquium on Broadcast and Wired Teletext Systems	693
The Late Sir Frank Wood	82	Increase in Radio Transmitting Licence Fees	693
IEEE Members Reject Constitutional Changes	83	Mains Operated Nuclear Electronic Equipment Specification	693
Joint IEE-IERE Conference Publications	83	The Clerk Maxwell Lodge	693
Golden Jubilee Banquet	144, 192, 320	New Baird Monograph to be published by IERE	754
The Canadian Division	144	Tenth Anniversary of the CEI Charter	754
Measurements and Instruments Group Formed	144	Annual Report of the Council of the Institution, 49th	487
Skynet II—A Correction and a Success Story	144	Applicants for Election and Transfer	89, 148, 196, 265, 324, 376, 444, 641, 702, 766
Hurren Memorial Lecture	144	BEDS AND HERTS SECTION	
Special Commemorative Postal Covers to Mark Centenary of Institution of Royal Engineers	144	Inaugural Meeting of the Section—Prospects for Radio Communication	447, 511
Corrections	144, 320, 635, 692	Large Scale Integrated Circuits for Teletext Decoding	447, 511, 643
The Institution Tie	192	A Look at Classical and Modern Control Theory	704, 768
Telecommunications Research	192	The Role of Night Vision Sensors as Flying and Target Acquisition Aids in Future Military Aircraft	768
RAeS Changes Membership Nomenclature	192	British Electronic Components Industry in 1975	400
Supervisory Studies	192	Britain's first X-Ray astronomy satellite	168
'EEC—Your Questions Answered'	192	British Library's First Report	199
Royal Charter for Institution of Metallurgists	193	Broadcasting and Receivers	575
Electronics EDC Membership	255	Bubble materials—composition, growth and evaluation	711
New Fellows of the Royal Society	255	Canadian Reorganization of Science and Technology	508
IEEE to Investigate Engineering Unemployment	255	CCIR and the ionosphere	42
Implications for Engineers of the Quebec Official Language Act	255	CEI NEWS (See also under Announcements)	
'Artisan to Graduate'	255	The 20th Graham Clark Lecture—Further Details	83
R & D—where is the money spent?	256	Registration Statistics	83
Dielectric Materials, Measurements and Applications	320	Detail Design Conference	83
Leeds Electronics Exhibition 1975	320	Association of Retired Engineers	83
European Science Foundation	320	1975 Survey of Professional Engineers	197
Rehabilitation of Disabled Engineers	369	New CEI Chairman and Vice-Chairman Take Office	197
Israel's Research Effort	369	Engineering Education Through Video Techniques	197
New Chairman of the British Overseas Trade Board	369	Submissions Invited for 1975 MacRobert Award	197
Revised Fees for Patents and Designs	369	Medals and Awards—a CEI Publication	197
New Eye Protection Regulations	369	European Engineering Students' Meeting	197
Nominations for 1975 John Smeaton Medal	436	CEI Proposals for Reorganization of the Engineering Profession	257
The Institution's Specialized and Local Activities	436	CEI and the 'Closed Shop'	261
Production Engineers Move to New HQ	436	Sir Frederick Catherwood on Conglomerates	261
CEI Board Decisions on the Future Organization of the Engineering Profession	436	'What do you Know about Professional Engineering?'	261
Journal Subscription Rates for 1976	436	Retirement of I. Prod. E. Secretary	261
Engineering Exhibition and Seminar in Bahrain	436	Obituary	261
The Golden Jubilee Issue of the Journal	505, 692	Appointments in the Chartered Institutions	506
Service of Thanksgiving	505, 634	CEC Meet in Accra	506
Reduced Rates for IEE Publications	505	Certified Diploma in Accounting and Finance	89
IEE Gives Notice of Leaving CEI	505	Challenge to the Electronics Capital Goods Industry	390
Conference on Advances in Magnetic Materials and their Applications	505		

Character recognition using geometrical moments, A two-step strategy	481	CONFERENCES in 1975-1976	
Charged-coupled devices—concepts, technologies and applications	647	Advances in Automatic Testing Technology	86
CIRCUIT TECHNIQUES		Imeko VII	88
A digital generator for pattern drawing applications	75	Dielectric Materials, Measurements and Applications	320
Digital arithmetic units for a high data rate	116	Hybrid Microelectronics	373
A noise-protected digital heart ratemeter	155	Instrumentation in Oceanography	375
A design for a low-cost high-speed m.o.s. associative memory	177	Advances in Magnetic Materials and their Applications	505
Digital waveform synthesis	284	Civil Land Mobile Radio	509
Design of sharp-cut-off low-pass filters with ripples in the pass-band	293	International Conference on Automobile Electronics	635
A high-frequency-optimized RC-active filter based on the Wien bridge	462	Video and Data Recording	639
A 150-MHz coaxial line radar transmitter for the study of radar aurora	311	The Applications of Electronics in Medicine	692
A sub-nanosecond data storage system	475	Considerations relating to the properties of the Hadamard transformation and its application in data compression (abstract)	147
Magnetic bubble domain memories in epitaxial garnet films	725	Consumer Confusion	85
Microwave device applications of epitaxial magnetic garnets	738	Contributors to this issue .. 46, 80, 94, 138, 154, 176, 191, 202, 270, 298, 319, 368, 378, 450, 480, 646, 686, 706	
Code of Practice for the Avoidance of Electrical Interference in Electronic Instrumentation and Systems	268	CONTROL ENGINEERING	
Coefficient plane models for tracking system design	465	Coefficient plane models for tracking system design	465
Colloquium Report—Recent Developments in High-Quality Sound	636	Present-day control engineering—is it latin to the undergraduate?	591
COMMUNICATIONS		Design of type 2 digital phase-locked loops	657
A double phase sweeping system for diversity reception in mobile radio	183	Control of mode conversions on bifilar line in tunnels	241
Linear and non-linear transversal equalizers for baseband channels	271	Cross-polarization of receiving reflector antennas, The effect of the polarization characteristics of the receiving feed	346
Tracer: a voice-frequency relay system for radio navigation aids	299	Data processing, Whither?	627
Diversity techniques for mobile radio reception	357	Data storage system, A sub-nanosecond	475
Fixed communications	543	Data transmission, Microprocessor-controlled interface	131
Fifty years of mobile radio	551	Design Council Awards 1975	638
Broadcasting and receivers	575	Design of type 2 digital phase-locked loops	657
Comparison of optimal delta modulators for the low-bit rate transmission of speech (abstract)	146	Detection of small targets in clutter, Limitations of radar techniques	379
COMPONENTS		Detection of small targets in sea clutter, Further observations	105
Electronic components—from valves to integrated circuits	530	Dielectric and conductivity measurements on thin liquid films of n-heptanol	401
COMPUTERS		Digital arithmetic units for a high data rate	116
Digital arithmetic units for a high data rate	116	Digital demodulation techniques for linearly modulated signals (abstract)	147
A microprocessor-controlled interface for data transmission	131	Digital filters with multi-shift sequences within a sampling period (abstract)	147
Series-parallel generation of m-sequences	171	Digital generator for pattern drawing applications	75
A design for a low-cost high-speed m.o.s. associative memory	177	Digital heart ratemeter, A noise-protected	155
Early computers at Manchester University	327	Digital waveform synthesis	284
Early computer developments at Cambridge: the EDSAC	332	Diversity reception in mobile radio, A double phase sweeping system	183
The Pilot ACE at the National Physical Laboratory	336	Diversity techniques for mobile radio reception	357
Computers in the University of London 1945-1962	341	Dr. von Braun elected an Honorary Fellow	370
The inconspicuous computer	409	Early computer developments at Cambridge: the EDSAC	332
Performance problems with LEO I	411	Early computers at Manchester University	327
The Elliott 400 series and before	415	EAST ANGLIAN SECTION	
The history of Ferranti computers	422	Integrated Circuits for Analogue Functions	92
Information systems retrospect and prospect	427	Annual Dinner	151
A sub-nanosecond data storage system	475	Annual General Meeting	448, 511
A two-step strategy for character recognition using geometrical moments	481	Noise Reduction in High Quality Audio	448, 511
The foundation of computer engineering	598	Fibre Optics	448, 511
Whither data-processing?	627	Some Aspects of Modern Loudspeaker Design	448, 511, 643
Recent developments in the theory and practice of testable logic design	677	Viewdata—an Interactive Information Service for the General Public	448, 511, 643
Digital hardware modelling of deterministic traffic flow	680	Communication of the Future	448, 511, 643
Computers chosen for ESRO Meteosat Project	170	Videodisc	511, 643
Computers in the University of London 1945-1962	341	Teletext—Information Display on the Home Television Receiver	643, 704
		Charged-coupled Devices	704, 768
		Integrated Injection Logic-Efficiency and Versatility in Solid State	768
		Tropospheric Scatter Communications	768
		Digital Transmitters above 100 Megabits per second	768

EAST MIDLAND SECTION

The Implementation of Arithmetic Processes in LSI	
Microelectronics	92
Electronics Aids for Medical Studies	448, 512
Dolby Noise Reduction System	448, 512, 644
Sector Scanning Sonar	644, 704
Thyristor Control of A.C. Machines	704, 768
Progression of Control and Control Techniques	768

EDITORIALS

The Past and the Future	1
Advances in Automatic Testing Technology	93
Promoting Non-Glamorous Technologies	153
Leaky Feeders	201
Teletext—the next major development in television?	269
Communication between all Engineers	325
Celebrating Fifty Years	377
Do we care?	449
A Twentieth Century Institution	513

EDUCATION

The education of professional electronic engineers	525
The other side of the paper—A personal view of the CEI Part 2 subject: The engineer in society	694
Electromagnetic theory of the leaky coaxial cable	233
Electronic components—from valves to integrated circuits	530
Electronics and Music: Memorial to Mr. S. A. Hurren	193
Electronics, New horizons	631
Electronics Research in Japan	322
Elliott 400 series and before	415
Engineer in society, The other side of the paper: a personal view of the CEI Part 2 subject	694
Engineering considerations affecting the use of radiating cables in communications between vehicles and traffic control centres (abstract)	253
Engineering Specialists Exhibition	152
Epitaxial magnetic garnets	707
Equalizers for baseband channels, Linear and non-linear transversal	271
Extension of television coverage in New Zealand	763
Feasibility of a two-way mobile radiocommunication in tunnels by means of a leaky braided coaxial cable (abstract)	253
Field leakage and crosstalk, with special reference to radiating cables with perforated tape screens	248
Filters with ripples in the pass-band, Design of sharp-cut-off low-pass	293
Fixed communications	543
Forthcoming Conferences	145, 256
Forthcoming Institution Meetings	91, 151, 200, 268, 447, 510, 642, 703, 767
Foundations of computer engineering	598
Golden Jubilee Banquet	441, 756
Hall plate, The finite element method for potential calculations	472
H.F. Heating Circuits and Techniques, Colloquium	74
History of Ferranti computers	422
Improvement of two-day mobile radiocommunication at h.f. by means of a leaky braided coaxial cable in the mine of Bassin des Houillères de Provence, France (abstract)	253
Inconspicuous computer, The	409
Information systems retrospect and prospect	427
Ionospheric perturbations and their effect on the accuracy of h.f. direction finders	63
Ionospheric physics, Developments since 1957	3
IONOSPHERIC PROPAGATION	
Developments in ionospheric physics since 1957	3

Solar-terrestrial relations and short-term ionospheric forecasting	11
Long-term h.f. propagation predictions for radio-circuit planning	31
The CCIR and the ionosphere	42
The propagation of l.f. and v.l.f. radio waves with reference to some systems applications	47
Ionospheric perturbations and their effect on the accuracy of h.f. direction finders	63

Ionospheric Radio Communication	2
Iterative detection process (abstract)	147

KENT SECTION

Flight Recording in Civil Aviation	91
Annual General Meeting	91
Navigation Hazard Warning Systems using Radar and Computer	91, 151
Redundancy in Avionic Systems	447
The Semiconductor Story	447, 510
Recent Advances in Calculator Technology	510, 643
Managing your P's and Q's	703, 767
Ceefax: A New Form of Broadcasting	767

Lasers and optical electronics	537
Leaky cables treated as open waveguides (abstract)	253
Leaky coaxial cable for communication in high speed railway transportation	224
Leaky-feeder principle, A general study	205
Leaky feeder radio communication systems, Synopses of other papers presented at the symposium	253

LEAKY FEEDER TECHNOLOGY

A general study of the leaky-feeder principle	205
Practical performance of radiating cables	215
Leaky coaxial cable for communication in high speed railway transportation	224
Theory of transmission of electromagnetic waves along multi-conductor lines in the proximity of walls of mine tunnels	229
Electromagnetic theory of the leaky coaxial cable	233
Control of mode conversions on bifilar line in tunnels	241
Field leakage and crosstalk, with special reference to radiating cables with perforated tape screens	248

LETTER TO THE EDITOR

A.C.U.C.E. memorial to Professor Emrys Williams	88
Status of the engineer	198
Qualifications of an engineer	198
On sequences from series-parallel <i>m</i> -sequence generators	308
Solar radio radiation	309
The pressures of research and development	442
A pioneer of electronics	687
Transistor configurations in integrated antennas	749
Polarization characteristics of reflector antennas	750
Airborne radar history	760

LONDON MEETINGS

Low Attenuation Corrugated Waveguides	91
Colloquium on Exploiting the PROM	91
Colloquium on Modular Courses	91
Acoustic Holography	91
Colloquium on On Line Calculators and Instrumentation	91
Colloquium on Radar and Associated Systems for Vehicle Guidance	91, 151
Colloquium on Computers in Transport	91, 151
Colloquium on Recent Developments in Turntable Design	91, 151, 200
Colloquium on Measuring Instruments for the Testing of Materials and Components	91
Colloquium on Millimetric Wave Propagation	91, 151, 200
Colloquium on The Japanese Electronics Industry	91, 151
Colloquium on The CEI Examination and the Colleges	91, 151, 200, 268

SUBJECT INDEX

Colloquium on Distributed Informations Systems .. 91, 151, 200, 268, 447, 510, 642

Colloquium on Wedding Calculators to Instruments .. 151, 447, 510, 642

Colloquium on Solid State Serial Stores .. 151

Colloquium on Trends in Testing Telecommunications Materials .. 151, 200

Electromagnetic Flowmeter Design .. 151, 200

Colloquium on Patient Monitoring .. 151, 200

Electronic Music: The Sound and The Technology 151, 200, 268

Colloquium on Recent Developments in High Quality Sound .. 151, 200, 268

A Shore Radar and Ship Beacon System—Operational Study, System Design, Implementation and Trials .. 200

Colloquium on Electronic Aids for the Deaf .. 200, 268

Hurren Memorial Lecture .. 268

Colloquium on Electronics in Audiology .. 268

Service Experience with the Trident Automatic Flight Control System .. 447

Development and Evolution of Colour Television Display Systems .. 447

Annual General Meeting of the Institution .. 447, 510

The Presidential Address .. 447, 510

Golden Jubilee Banquet .. 447, 510

Colloquium on Adaptive Array Processing .. 447, 510

Colloquium on Airborne Computer Systems .. 447, 510

Colloquium on Training Professional Electronics Engineers for Tomorrow .. 447, 510

Colloquium on Industrial Cathode Ray Tubes .. 510, 642

Colloquium on The Electronics of Electronic Organs 642, 703

Dynamic Systems Checkout .. 642, 703

Papers on The Mediator Project .. 642

Colloquium on Computer Aids to Software and System Design .. 703

Colloquium on Broadcast and Wired Teletext Systems Ceefax, Oracle, Viewdata .. 703, 767

Colloquium on Contemporary Teaching of Electronics 703

Colloquium on Current Trends in Surface Acoustic Waves .. 703, 767

Security Systems—Intruder Alarms .. 703, 767

Colloquium on The Impact of L.S.I. Components on Logic Design .. 767

Colloquium on Tropospheric Scatter Communications 767

Global Communications .. 767

MacRobert Award for the Manufacture of High Activity Catalysts, 1974 .. 90

Magnetic bubble domain memories in epitaxial garnet films 725

MATERIALS TECHNOLOGY

Evaluation methods for the examination of thick film materials .. 121

Principles of thick film materials formulation .. 139

Dielectric and conductivity measurements on thin liquid films of n-heptanol .. 401

Epitaxial magnetic garnets .. 707

Bubble materials—composition, growth and evolution 711

Magnetic bubble domain memories in epitaxial garnet films 725

Microwave device applications of epitaxial magnetic garnets .. 738

MEDICAL ELECTRONICS

A noise-protected digital heart ratemeter .. 155

Medical electronics .. 617

Members' Appointments .. 87, 149, 194, 262, 323, 371, 443, 700, 765

Membership Roll for the First Decade .. 514

Memory, A design for a low-cost high-speed m.o.s. associative .. 177

MERSEYSIDE SECTION

The Application of Computers to the Wide Area Control of Road Traffic .. 92

Annual General Meeting—Computer Display Systems .. 200

Electronics by Numbers .. 448, 512

Radio Astronomy .. 448, 512, 644

Process in Medical Instrumentation .. 644, 704

Electronics in Oceanography .. 768

Microwave device applications of epitaxial magnetic garnets .. 738

Mobile Radio, Fifty years of .. 551

Moving target indication system, Analysis of a dual-frequency .. 351

Mullard Reports on a Year's Research .. 508

National Centre for Terotechnology .. 486

NEW BOOKS RECEIVED

Lightning Protection .. 266

Design of Modern Transistor Circuits .. 266

Low-Noise Electronic Design .. 266

Statistical Pattern Recognition .. 266

Acoustic Fields and Waves in Solids .. 266

Electronics and Environments .. 266

Electrical Transducers for Industrial Measurement .. 266

Digital Magnetic Tape Recording for Computer Applications .. 266

Bubble-Domain Memory Devices .. 266

An Introduction to Electromagnetic Theory .. 266

Digital Electronics .. 267

Linear Microelectronic Systems .. 267

Introduction to the Theory of Space-Charge Optics .. 267

Modulation .. 267

Large and Medium Scale Integration: Devices and Applications .. 267

M.O.S.T. Integrated-circuit Engineering .. 267

Solid-State Circuits .. 267

Electronic Equipment Reliability .. 267

Literature in Digital Signal Processing: Terminology and Permuted Title Index .. 267

Solution of Problems in Computer and Control Engineering 1, .. 267

The Story of Radio .. 445

Wireless Telegraphy .. 445

Theory of Waveguides .. 445

The ARRL Antenna Book .. 446

Wideband Voltage Amplifiers .. 446

Practical Approach to Pattern Classification .. 446

Geoscience Instrumentation .. 446

Digital Electronic Circuits and Systems .. 446

Metal-semiconductor Contacts .. 446

Communications Technology and Social Policy .. 446

Handbook of Thick Film Hybrid Microelectronics .. 446

New Linear Accelerator for Harwell .. 641

New Printed Circuit Board Production Technique .. 486

New Terotechnology Committee Chairman .. 699

Nominations for Election to Council .. 438

NORTH EASTERN SECTION

Military Communications by Satellite .. 92, 152

Frequency Domain Measurement .. 447, 512

Underwater Navigation .. 512, 644

Practical Uses of Pattern Recognition .. 644, 704

The Manufacture of Thick Film, Active Precision Filter 704

Electrical Engineering in some German Universities .. 768

NORTHERN IRELAND SECTION

The Role of the Polytechnic in Higher Education .. 152

Integrated Circuit Applications .. 448, 512

Voice Recognition by Computer .. 448, 512, 644

Discussion Forum—The Role of the Engineer in Society 644, 704

Data Communications .. 704, 768

Discussion: Nuclear Power for Northern Ireland? .. 768

Kilroot Power Station	768	SEMICONDUCTOR DEVICES	
Fuel Resources in Northern Ireland	768	Semiconductor devices—portrait of a technological explosion	515
Film: The Social Computer	768	Charged-coupled devices—concepts, technologies and applications	647
